

# We Love Kids

## Vision

We love kids was founded by Joni Flye in 2004 to help prevent human trafficking and alleviate endemic poverty by helping children in Vietnam and Cambodia receive an education. We Love Kids offers a simple scholarship program that has helped over 2000 students who would otherwise “fall through the cracks.” Many have completed high school and some have gone on to university! They partner with local churches who oversee the students and present the gospel to them through VBS, youth activities, and local membership.
